Home Upgrade
Energy Upgrade California®

Energy Upgrade California® Home Upgrade

Get incentives from $1,000 to $3,150

Upgrade to an energy-efficient home that is more durable and contributes to your health and safety through improved indoor air quality. You'll reduce energy use, increase comfort, and add value to your home—plus get cash incentives from the Bay Area Regional Energy Network!

Home Upgrade combines multiple improvements to increase your home's overall energy efficiency, saving you energy and money. Eligible home improvements include:

- Air sealing
- Duct sealing
- Insulation
- High-efficiency furnaces
- High-efficiency air conditioners
- High-efficiency water heaters
- High-efficiency windows

Are You Eligible?

Pacific Gas and Electric Company (PG&E) customers* who own a single-family detached home are eligible for Home Upgrade incentives.

*PG&E gas and PG&E electricity: All electricity and gas related upgrades
PG&E electricity and propane: Electricity related upgrades only
PG&E gas and Alameda Power, Silicon Valley Power, or Healdsburg electricity: Gas related upgrades only
City of Palo Alto: Not eligible; no PG&E utilities

More Upgrades Mean Higher Incentives

All base and flex upgrade measures are worth a pre-determined number of points that count toward your Home Upgrade incentive. You must choose a minimum of three total upgrade measures. The more points you earn by combining upgrades, the higher the incentives you can receive.

Incentives are awarded at $10 per point up to a maximum of $3,000. An additional $150 incentive is available to offset combustion safety testing costs of completed projects. There is a minimum of 100 points for a $1,000 rebate.

Points to Incentives
1 Point = $10 in Incentives

Energy Upgrade California® Home Upgrade provides assistance and incentives for home improvement projects that can reduce energy use and make homes more comfortable. This statewide program is managed locally by utilities and regional energy networks and directed by the California Public Utilities Commission in collaboration with the California Energy Commission. Funding comes from utility customers under the auspices of the California Public Utilities Commission. Incentives are offered on a first-come, first-served basis and are effective until funding is expended or the program is discontinued. Programs may be modified or terminated without prior notice.
