

# **Hetin kPlus** Hot Water Recirculation

Taco Hot-LinkPlus™ reduces the time it takes for hot water comfort to reach showers and faucets. The Hot-LinkPlus features a smart circulator that learns household hot water usage patterns and makes hot water available at the same times the following week. If water usage changes the Hot-LinkPlus circulator adapts for you. It never needs programming! When no hot water usage is dectected there's even an automatic vacation mode. The average family can save up to 12,000 gallons of water per year and it's easy to retrofit to an existing plumbing system. Designed for plumbing systems that do not have a dedicated return line.

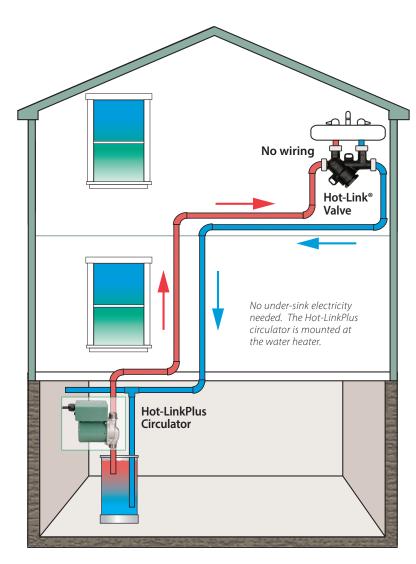

# HetinkPus delivers instant hot water using existing plumbing system!

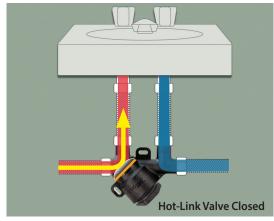

#### **Features of Hot-LinkPlus™ Circulator:**

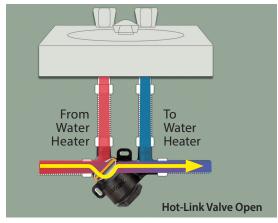

- Up to 94% more energy efficient than standard recirculation circulators.
- Fully automatic. Never needs programming.
- LED Display.
- Vacation Function.
- 3-year warranty.

#### Features of Hot-Link® Valve:

- Exclusive clean in-place design.
- Saves time, water and energy.
- Easy to install.
- Ideal for home retrofits.

  No recirculation line necessary.

### **Typical Hot-LinkPlus Schematic**

## Save Energy, Water and Time! **Link up to instant hot water comfort!**

#### Hot water without the waste!

The Taco Hot-LinkPlus for domestic hot water recirculation reduces the time it takes for hot water comfort to reach showers and faucets by recirculating "cooled" water back to the water heater; hot water lines remain hot. **The Hot-LinkPlus can save an average family up to 12,000 gallons per year** — water that normally goes down the drain while waiting for hot water. Installation is a snap. Uses existing plumbing.

#### How the Hot-Link Plus works.

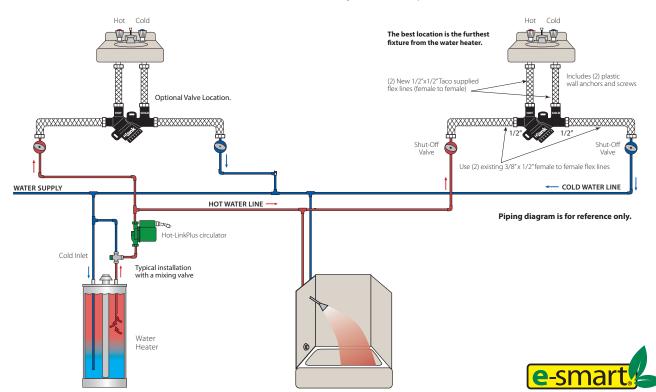

When set to "Smart" mode, the Hot-LinkPlus circulator monitors and records the home's hot water usage pattern and repeats the pattern to cycle the pump, providing instant hot water at all fixtures only when needed. An optional "pulse" mode can be selected which sets the circulator to run for 5 minutes every 10 minutes maintaining hot water at all fixtures. In either mode, an automatic vacation mode activates when 36 hours of hot water inactivity is reached. The Hot-LinkPlus bypass valves unique thermal disk technology sends cooled water back to the water heater so hot water lines remain hot.

#### Hot-Link Plus is easy to install.

First, install the Hot-LinkPlus bypass valve at the faucet furthest away from the water heater. Then install the Hot-LinkPlus circulator at the water heater. Once installed connect the temperature sensor to the hot water supply pipe and plug the 6' power cord into any standard 120V electrical outlet. Everything needed to install and operate the system is in the box.

#### Benefits of the Hot-Link System.

Saves energy, water and time while providing instant hot water comfort. What's more, it's made by Taco, known by plumbing professionals as a world leader in high quality hydronic components since 1920.

#### Effective: 08/05/15

#### **Hot-LinkPlus Includes:**

Hot-Link Valve

Hot-LinkPlus Circulator

(2) Flex Hoses

(2) Half Unions with Tail Pieces

## Materials of Construction —Circulator & Union

Casting (Volute)	Stainless Steel
Stator Housing	Steel
Cartridge	Stainless Steel
Impeller	Noryl
Shaft	Ceramic
Bearings	Carbon
O-Ring	EPDM
Half Unions	Stainless Steel
Tail Pieces	Stainless Steel

## Materials of Construction —Hot-Link Valve

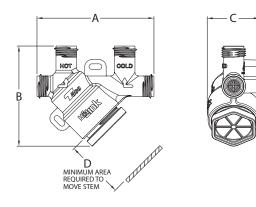

Body	Nylon
Thermal Disk Actuator	Bi-Metal
O-Ring Seals	EPDM
Integral Flow Check (IFC	·):
Body, Plunger	Acetal
O-Rings	EPDM
Screen	304 SS
Stem	Nylon
Actuator Cartridge	
Braided Flex Hoses	Stainless Steel
